## **Forward-Looking Statements and Market Data**

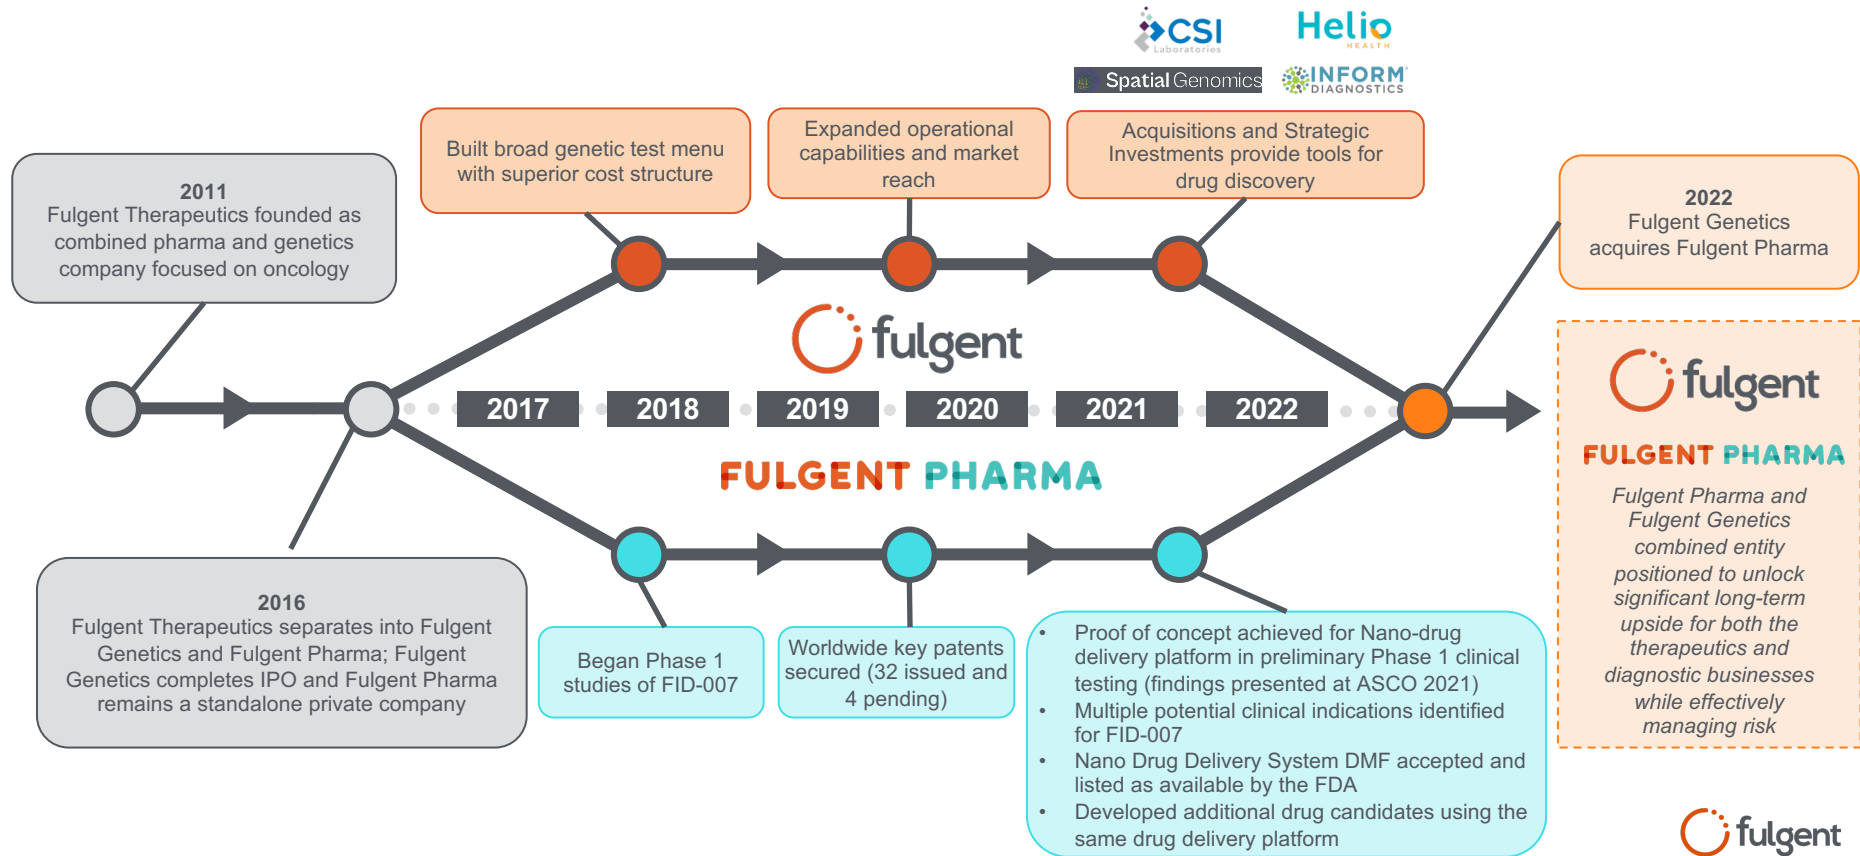

This presentation contains forward-looking statements, which are statements other than those of historical facts and which represent the estimates and expectations of Fulgent Genetics, Inc. (the “Company”) about future events based on current views and assumptions. Examples of forward-looking statements made in this presentation include, among others, those related to long-term upside or value, management of risk, anticipated growth and positioning, addressable market estimates, the Company’s mission, vision and strategies, the success of its business model and strategy, anticipated future revenue and guidance, evaluations and judgments regarding the Company’s business, products, technologies, competitive landscape, scalability, plans regarding development and launch of potential future products, and any businesses the Company may seek to acquire or has acquired or has invested in or may seek to invest in, including statements regarding Fulgent Pharma Holdings, Inc. (“Fulgent Pharma”), Inform Diagnostics, CSI Laboratories, Helio Health, Spatial Genomics, and any potential synergies, or transformation of the Company’s business, long-term visions and strategies, included, with respect to Fulgent Pharma, those designated to create a vertically integrated solution for cancer care, the clinical development of Fulgent Pharma’s pipeline and related statements and assumptions regarding development timelines, any potentially accelerated pathway for regulatory approval, the potential safety and efficacy of the nanodrug delivery platform and any related therapeutic candidates, the potential market size for these candidates and platforms and the value of available data, including genomic data and guidance regarding the Company’s future performance and results of operations. The Company’s views and assumptions on which these forward-looking statements are based may prove to be incorrect. As a result, matters discussed in any forward-looking statements are subject to risks, uncertainties and changes in circumstances that may cause actual results to differ materially from those discussed or implied by any forward-looking statements. Important factors that could cause actual results to differ materially from those implied by forward-looking statements are disclosed under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in the Company’s reports filed with the Securities and Exchange Commission (“SEC”), including its annual report on Form 10-K filed on February 28, 2023, and other reports it files from time to time. Because of these factors, you should not rely upon forward-looking statements as predictions of future events. The forward-looking statements in this presentation are made only as of the date hereof, and, except as required by law, the Company assumes no obligation to update any forward-looking statements in the future. The company’s reports filed with the SEC, including its annual report on Form 10-K for the year ended December 31, 2022 filed with the SEC on February 28, 2023 and the other reports it files from time to time, including subsequently filed quarterly and current reports, are made available on the company’s website upon their filing with the SEC. These reports contain more information about the company, its business and the risks affecting its business, as well as its results of operations for the periods covered by the financial results included in this presentation.

This presentation also includes market data and forecasts with respect to the industry in which the Company operates. In some cases, the Company relies upon and refers to market data and certain industry forecasts that have been obtained from third-party surveys, market research, consultant surveys, publicly available information and industry publications that the Company believes to be reliable. These data and estimates involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates.

## **Non-GAAP Financial Measures**

This presentation contains certain supplemental financial measures that are not calculated pursuant to U.S. generally accepted accounting principles (“GAAP”). These non-GAAP measures are in addition to, not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation of non-GAAP measures to GAAP measures is contained in this presentation.

# History of Fulgent

# Strategic Vision – A One-Stop Solution for Cancer Care

*To build a vertically integrated solution to combat cancer*  
early detection | clinical diagnostics | post treatment monitoring | drug discovery and cancer treatment

*Leading Genetic Testing Company Offering Tech-Enabled Diagnostic Solutions*

**Nano-Drug  
Delivery Platform**

**FULGENT PHARMA**

*Exciting Cancer Therapeutic Opportunity  
Realizing Precision Medicine Potential*

## **Therapeutic and Diagnostic Entity Providing Comprehensive Solutions Across the Cancer Care Continuum**

- Vertically integrated “one-stop” solution across the healthcare chain following the CSI, Inform Diagnostics, and Pharma acquisitions
- Proprietary nano drug delivery technology platform serves as an underpinning technology between diagnostic and pharm to help create a more sustainable and profitable business model in precision medicine for years to come
- Addition of a talented scientific team creates a strong synergy and competitive advantage that may be leveraged across the combined business
- Potential near-term opportunity includes shortened 505(b)(2) drug development and commercialization timelines and potential long-term opportunity leverages large data insights and novel analytical tools from diagnostics business to enable additional precision medicine pipeline through organic or partnered development strategies
- Commitment to continue growing diagnostic and therapeutic opportunities through organic investments and M&A
- Seasoned management team along with strong cash position allow Fulgent to enter therapeutic opportunities while managing risk

# Long-Term Vision: Fulgent Continuum of Care

Diagnosis

Therapy

Database + Drug Discovery  
+ Patient Care

- Transforms from a service company to a combined diagnostic and therapeutic company focused on precision medicine
- Large oncology market opportunity
- Careful pipeline management will responsibly engage therapeutic opportunities while managing potential risks
- Valuable, diverse assets and future sustainable revenue and margins

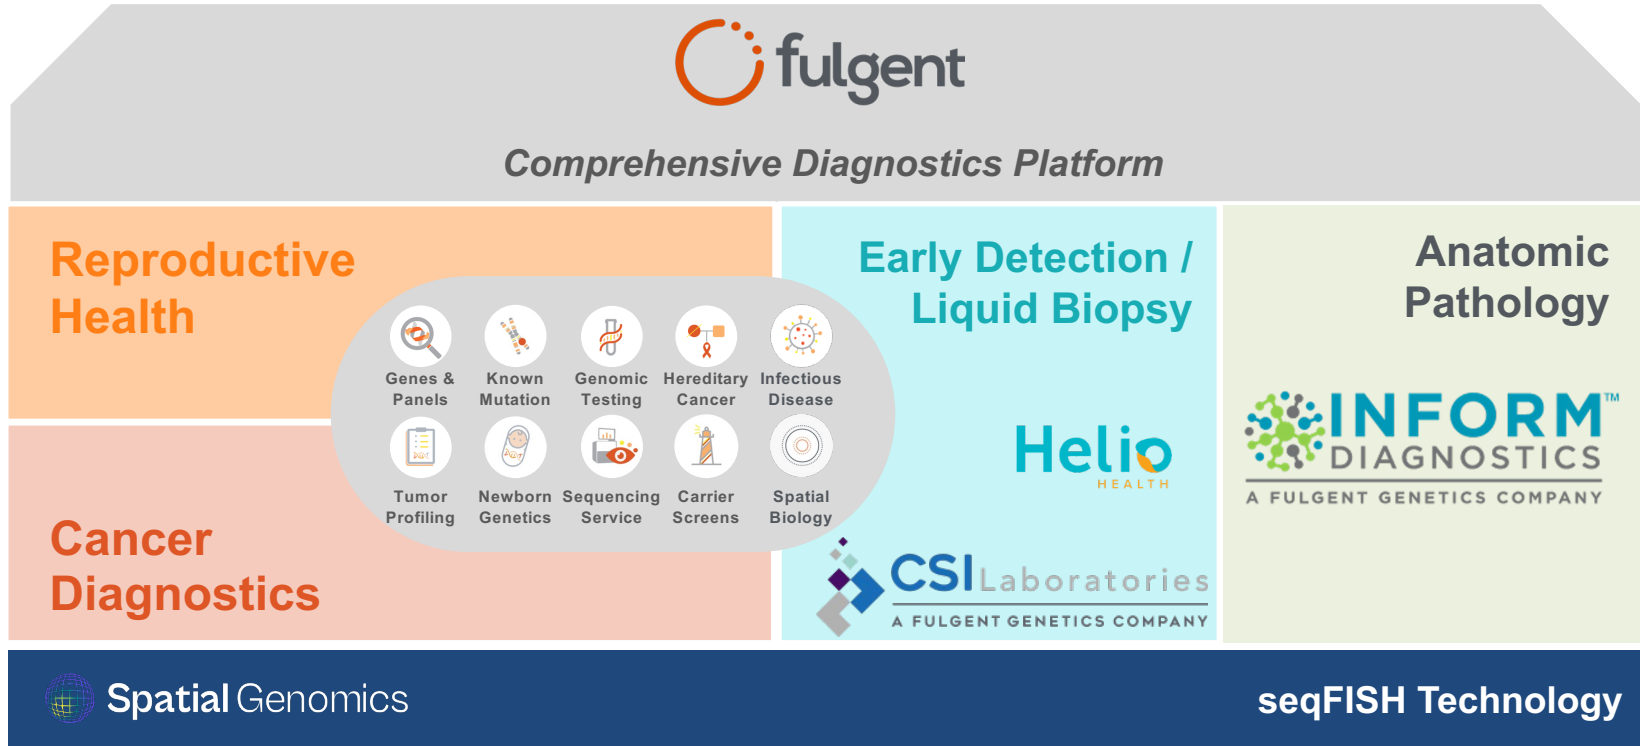

## FULGENT PHARMA

- Well-funded by diagnostics to advance H&N therapy trials and commercialization process
- Genomics data accelerates pipeline therapeutics development, e.g. spatial biology for tumor micro-environment profiling
- Long-term opportunity to leverage data insights from diagnostics to enable precision medicine through proprietary or partnered development strategies
- Manufacturing capability to aid drug development

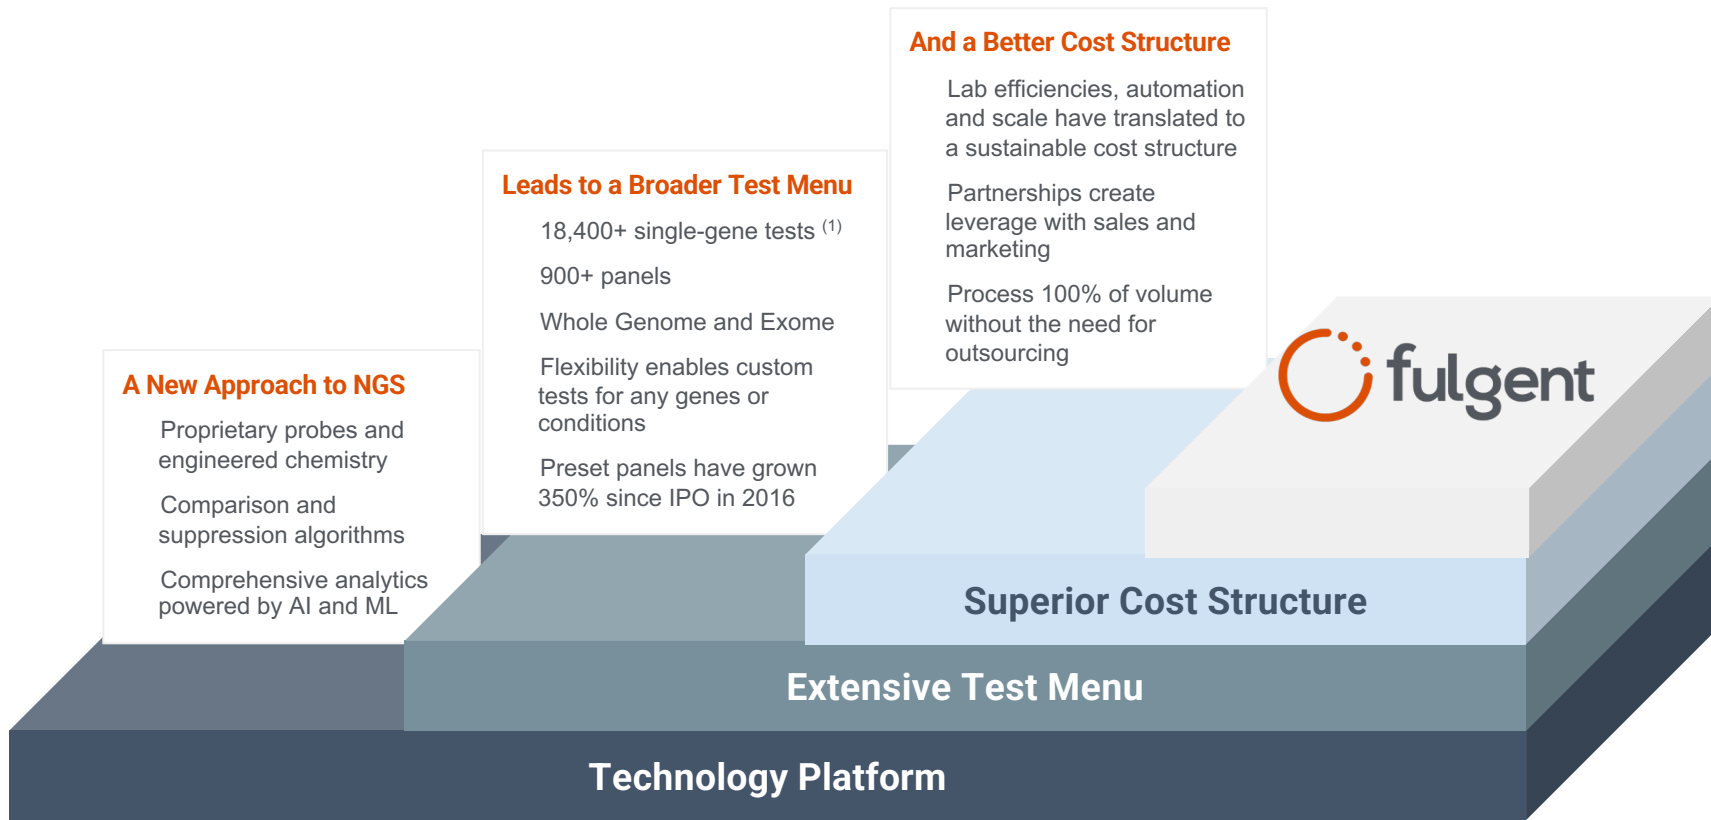

# DIAGNOSTICS

# Building Diagnostics Platform and Capabilities

# What Sets Fulgent Diagnostics Apart?

1) Represents genes covered by single-gene tests.

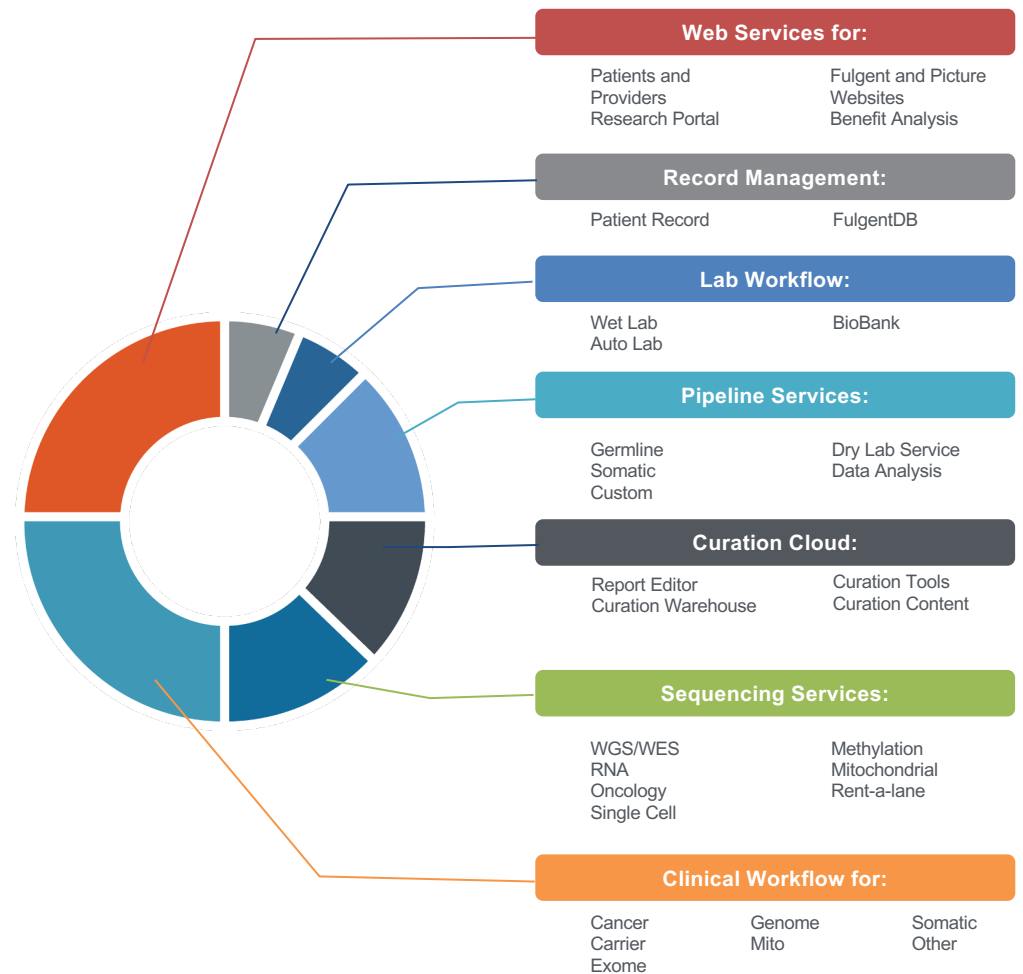

# Proprietary Technology Platform

## Differentiated Technology...

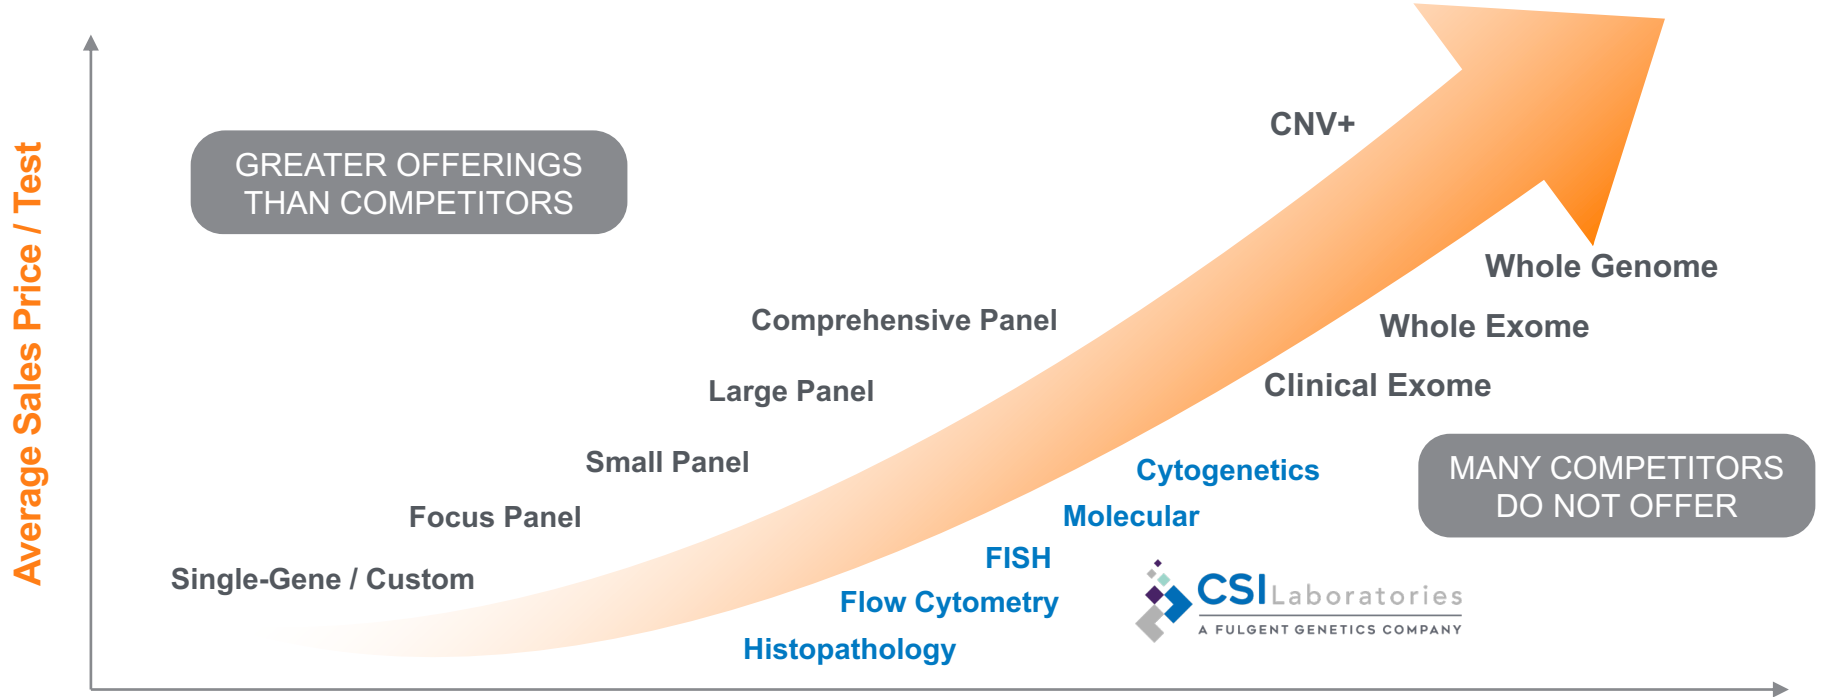

- Engineered genetic biochemistry, including reagents and probes
- Data suppression and comparison algorithms
- Adaptive learning software
- Automated reporting

## ...Provides a Multitude of Advantages

- Broad test menu
- Ability to rapidly develop and launch new tests
- Customizable test offerings
- Lower costs per billable test
- High efficiency

# Our Menu is Scalable and Affordable to Customers

# Oncology Testing Platforms

## FISH

- Expansive heme and solid tumor menu
- STAT testing available - PML/RARA <1 day TAT
- CD138 cell enrichment for PCM
- 3-5 Day turnaround time

## Histology

- 225+ stains
- Platform agnostic Roche, Agilent and Leica IHC
- Three levels of service – Tech, Global, Consultative
- PD-L1 - Various IVD platforms and indications
- <1-2 Day turnaround time

## Cytogenetics

- Oncology and constitutional
- >20% abnormality detection rate
- Mitogen stimulation/dual culture
- DSP30 (detection of B-cell disorders)
- Interleukin 4 for plasma cell myeloma
- Phytohemagglutinin and Interleukin 2 (detection of T-cell disorders)
- Children's Oncology Group approved
- 5-7 Day turnaround time

## Flow Cytometry

- 10-color platform
- Comprehensive panel design
- High-sensitivity for paroxysmal nocturnal hemoglobinuria
- Expert analysis and interpretation
- 12-24 Hour turnaround time

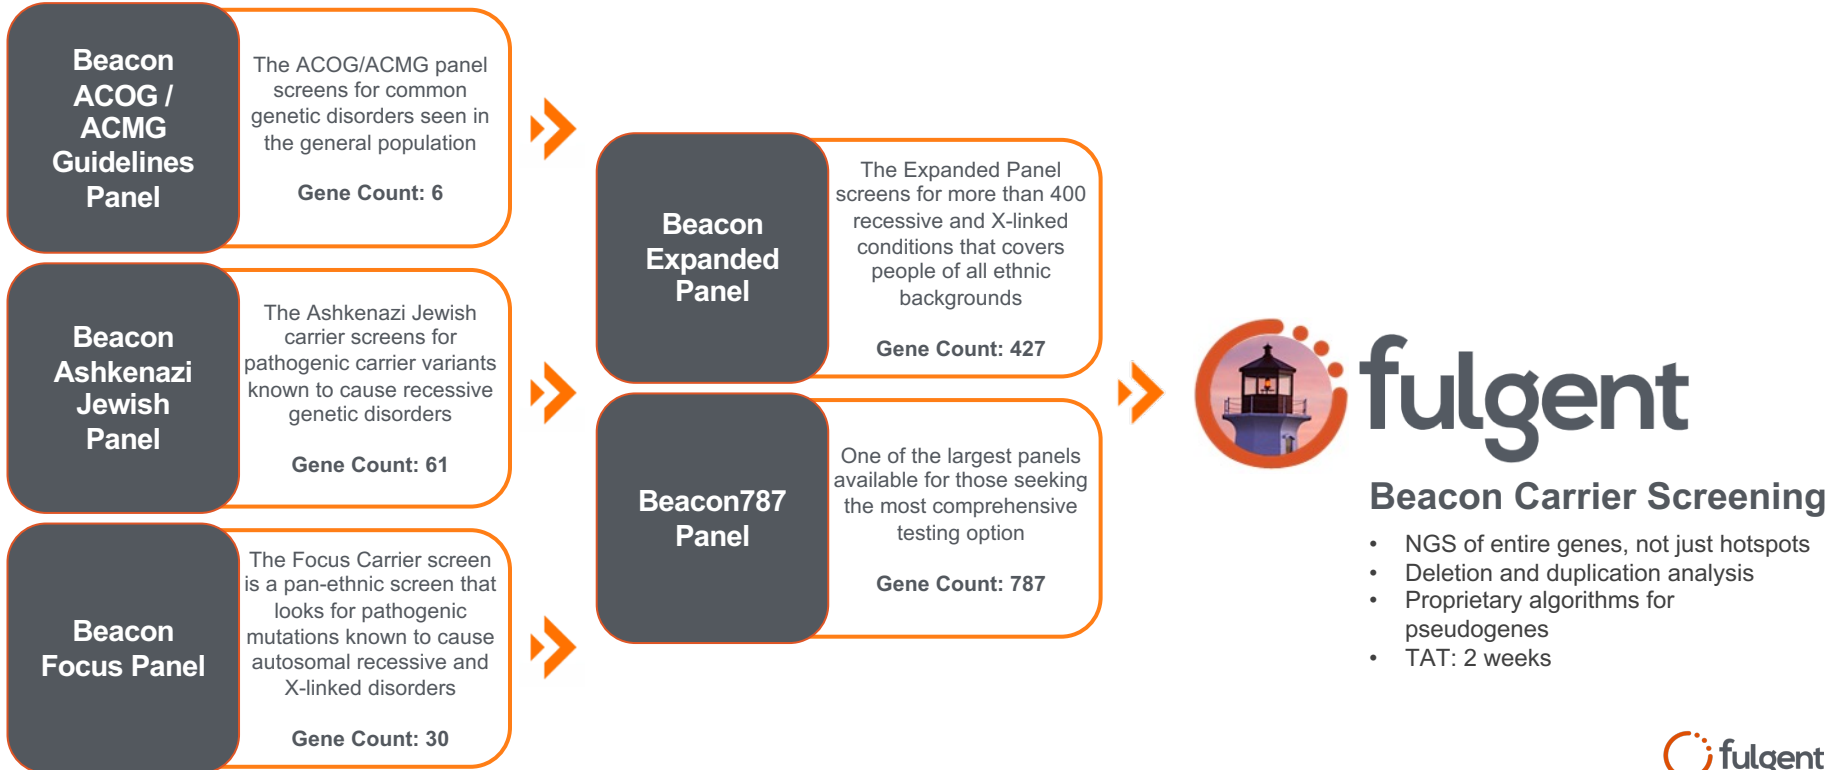

## Molecular

- Hematology and solid tumor menu
- Extensive single gene menu
- NGS
- 5-7 Day turnaround time [NGS 10-14 Days]

# NGS Testing – Panel Deep Dive

## Comprehensive Beacon Carrier Screening Tests

PHARMA

# \$68M

Q4 Revenue

# +97%

Q4 YoY Core Revenue Increase

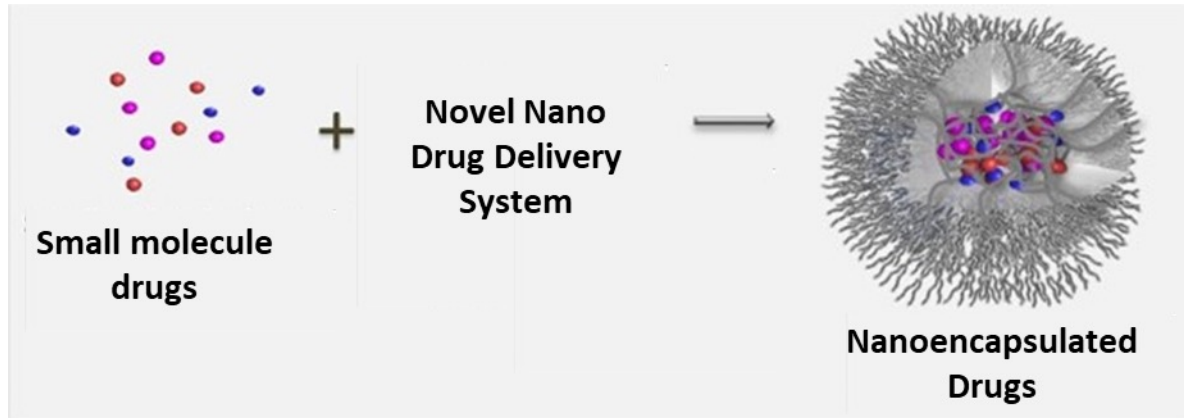

---

18,400+ GENES | 900+ PANELS  
CUSTOMIZABLE OFFERINGS

## Positioned for Growth

- 1 Proprietary technology platform allows for rapid scaling of a **broad, flexible test menu**
- 2 **Next-generation sequencing (NGS)** platform complemented with growing portfolio of **emerging testing technologies** with a focus on oncology
- 3 Well-positioned to execute on a growth strategy that includes **organic and inorganic initiatives**, including:
  - Transformational acquisition of **Inform Diagnostics**
  - Ramping of **CSI Labs**
  - Scaling partnerships – **Helio Genomics and Spatial Genomics**
  - Potential **future acquisitions** with a strategy of short- and long-term ROI, tangible synergies, and efficient capital deployment

# Nano-Drug Delivery Platform Overview

## Platform Advantage:

**Soluble in both water and various organic solvents and capable of hot melt mixing with APIs**

- Many drug candidates in the industry failed during preclinical and clinical development and testing due to poor water solubility
- Nanoencapsulation produces amorphous drug candidates with improved solubility and potentially enhanced absorption, drug PK profiles, safety and efficacy
- Broadly applicable to both IV and oral drug delivery formulations
- Potentially shortened development timeline
- Plug and play drug delivery platform provides multiple shots on goal
- Simple and low-cost production process

# FID-007 Program Overview

## FID-007 Phase I First in Human Clinical Trial – Preliminary Findings

- Dose levels up to 125 mg/m<sup>2</sup>/week with manageable safety profile, without yet reaching MTD
  - Dosing at 160 mg/m<sup>2</sup>/week is ongoing
- There is preliminary evidence of anti-tumor activity in heavily pre-treated patients across different tumor types
- Partial clinical data presented at ASCO 2021

## FID-007 Phase I Preliminary Highlights (as of 6/10/22):

### H&N Cancer

- 100% Disease Control Rate (DCR<sup>1</sup>) and 33% Overall Response Rate (ORR) were observed in 6 heavily treated H&N patients

### Ampullary/Pancreatic

- 75% DCR and 50% ORR were seen in 4 heavily treated ampullary and pancreatic patients

### Immune Checkpoint Inhibitors (ICIs) Resistant Patients

- 67% DCR and 33% ORR were seen in 6 heavily treated patients of different types of cancer with PD-1 or PD-L1 antibody treatment as the last line prior to enrollment in FID-007 trial

**Anticipate more data to be published in 2023**

## A Phase 1 Trial of FID-007, a Novel Nanoparticle Paclitaxel Formulation, in Patients with Solid Tumors

Jacob Thomas<sup>1</sup>, Diane Habib<sup>1</sup>, Diana Hanna<sup>1,2</sup>, Irene Kang<sup>1</sup>, Syma Iqbal<sup>1</sup>, Jorge Nieva<sup>1</sup>, Denise Tsao-Wei<sup>1</sup>, Francisco Acosta<sup>1</sup>, Ming Hsieh<sup>3</sup>, Yifeng Zhang<sup>3</sup>, Anthony El-Khoueiry<sup>1</sup>  
<sup>1</sup>University of Southern California, Norris Comprehensive Cancer Center; <sup>2</sup>Hoag Memorial Hospital; <sup>3</sup>Fulgent Pharma

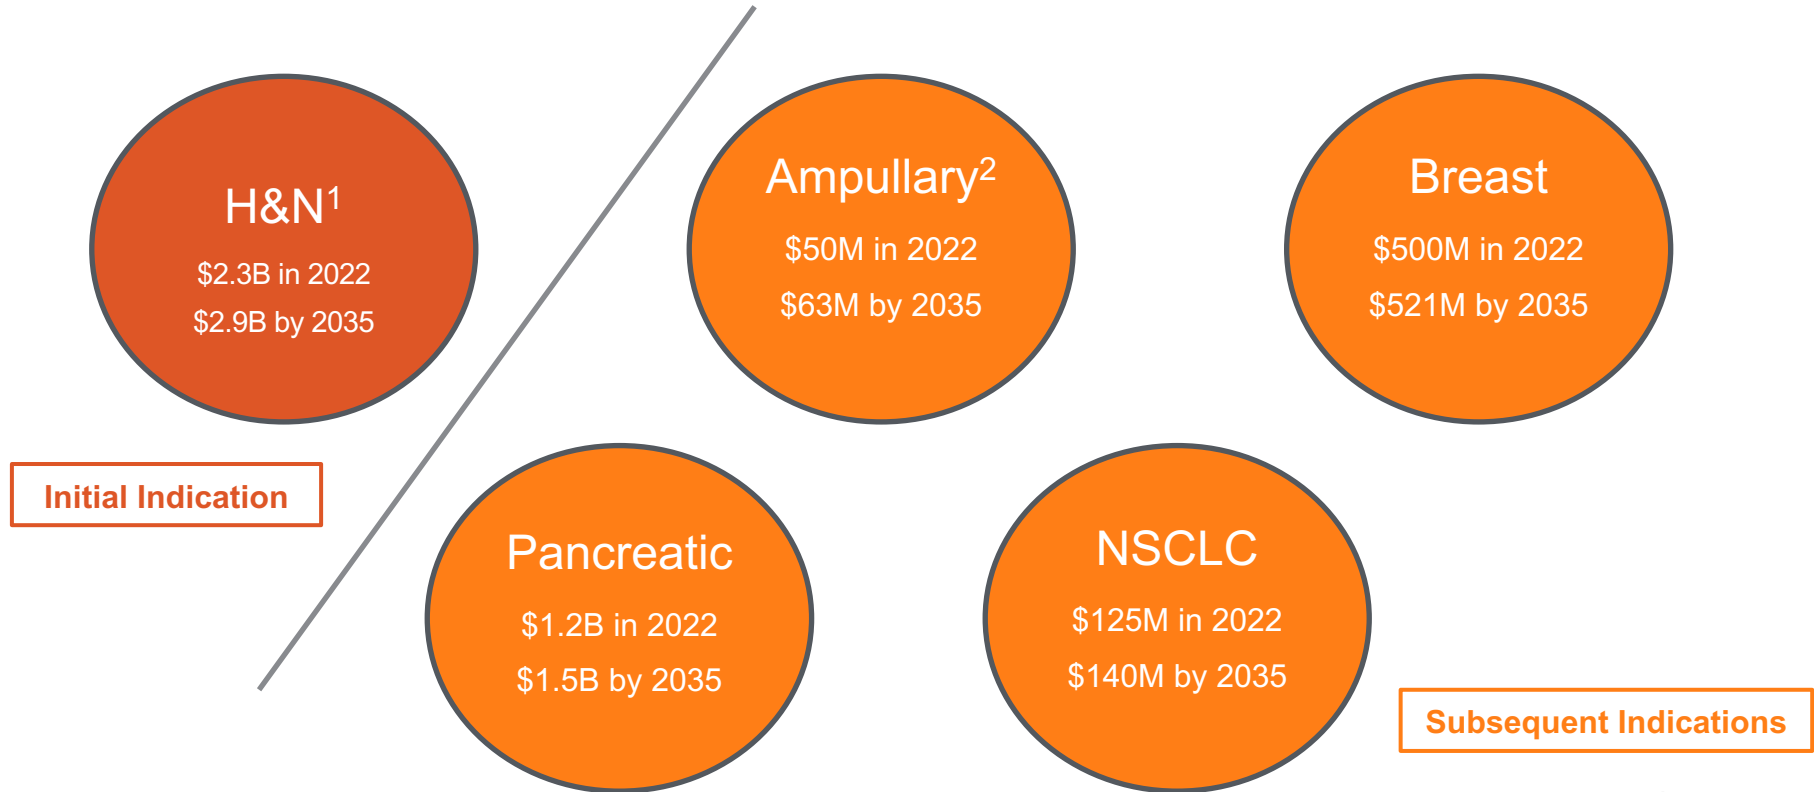

Note: all findings are preliminary

1. DCR includes Stable Disease (SD), Partial Response (PR), Complete Response (CR)

# Potential Market Opportunity for FID-007

Note: U.S. opportunity shown

Sources: Evaluate Pharma, Wall Street research, and management pricing expectations

1. H&N market opportunity for both 2<sup>nd</sup> line and 3<sup>rd</sup> line therapy
2. Ampullary market opportunity for 2<sup>nd</sup> line therapy

# FID-007 Clinical and Regulatory Plan

- Wholly-owned drug candidate initially focused on Head & Neck (H&N), Pancreatic/Ampullary cancers
  - Seeking initial therapeutic indication for 2<sup>nd</sup> or 3<sup>rd</sup> line treatment of H&N cancer
  - Exploring potential ampullary or ICI resistant
- Potential FDA approval strategy uses 505(b)(2) studies, which may shorten clinical trial process and accelerate timeline to commercialization

Drug Candidates	Target	Indication	Pre-Clinical	Clinical P1	Clinical P2	Clinical P3	Milestones
FID-007	Cytotoxic	Potential BE to Abraxane (505(b)(2))	▶				Present P1 Data 2023 Begin P2/3 Enrollment 2023
		Head and Neck (H&N) (505(b)(2))	▶				Begin P2 Enrollment 2024
		Ampullary or ICI Resistant (505(b)(2))	▶				Go/No-go Based on BE Study

*Additional candidates in preclinical development focused on various cancers*

# FINANCIALS

# Summary Financial Performance

**\$55M** Core Revenue<sup>1</sup> in Q4'22
