### Fulgent Reports Third Quarter 2023 Financial Results

- Core Revenue of \$66 million represents Growth of 17% Year-over-Year
- Additional Reimbursement from COVID-19 Test Sales yields Revenue of \$19 million, for Total Revenue of \$85 million
- Reiterates Full Year 2023 Core Revenue Guidance of \$260 million

EL MONTE, CA, November 3, 2023 — Fulgent Genetics, Inc. (NASDAQ: FLGT) ("Fulgent" or the "Company"), a technology-based company with a wellestablished clinical diagnostic business and a therapeutic development business, today announced financial results for its third quarter ended September 30, 2023.

### Third Quarter 2023 Results:

.

- Total Revenue of \$85 million
- Core Revenue<sup>1</sup> grew 17% year-over-year to \$66 million
- GAAP loss of \$13.1 million, or \$0.44 per share
- Non-GAAP loss of \$11.7 million, or \$0.39 per share
- Adjusted EBITDA of \$18.1 million
- Generated cash flow from operations of \$10.2 million
- Cash, cash equivalents, and investments in marketable securities of \$851 million as of September 30, 2023

#### Note:

1) Core Revenue excludes revenue from COVID-19 testing products and services including COVID-19 NGS testing revenue.

Non-GAAP income (loss), non-GAAP income (loss) per share, and adjusted EBITDA income (loss) are described below under "Note Regarding Non-GAAP Financial Measures" and are reconciled to the most directly comparable GAAP financial measure, GAAP income (loss), in the accompanying tables.

Commenting on the results, Ming Hsieh, Chairman of the Board and Chief Executive Officer, said, "We continue to see good momentum in our core business, with particular strength in precision diagnostics. I am pleased with the trajectory of the business and our ability to use our resources efficiently as we continue to grow our core revenue. At the same time, we are advancing our therapeutics development business, Fulgent Pharma, with ongoing clinical data of our lead drug candidate, FID-007, being presented tomorrow at the Society for Immunotherapy of Cancer annual meeting in San Diego. We believe these data continue to support our program, and we are excited to initiate Phase 2 studies of FID-007 in head and neck cancer in the first quarter of 2024."

Paul Kim, Chief Financial Officer, added, "We are pleased with our performance as we near the end of 2023, with momentum in the business and a strong financial profile. Even as we continue to invest in our business and repurchase shares, we are maintaining an enviable cash position with which to execute our strategy in 2024 and beyond."

### Outlook:

For the full year 2023, Fulgent expects:

- Core Revenue of approximately \$260 million
- GAAP loss of approximately \$2.15 per share
- Non-GAAP loss of \$0.95 per share
- Cash, cash equivalents, and investments in marketable securities of approximately \$830 million as of December 31, 2023\*

\* Cash expenditures may be higher or lower than currently estimated due to a variety of facts and circumstances, including as a result of the Company's ongoing stock repurchase program or other expenditures outside of ordinary course.

#### **Conference Call Information**

Fulgent will host a conference call for the investment community today at 8:30 AM ET (5:30 AM PT) to discuss its third quarter 2023 results. The call may be accessed through a live audio webcast on the Investor Relations section of the Company's website, https://ir.fulgentgenetics.com/. An audio replay will be available at the same location.

### Note Regarding Non-GAAP Financial Measures

Certain information set forth in this press release, including non-GAAP income (loss), non-GAAP income (loss) per share, and adjusted EBITDA income (loss) are non-GAAP financial measures. Fulgent believes this information is useful to investors because it provides a basis for measuring the performance of the Company's business, excluding certain income or expense items that management believes are not directly attributable to the Company's operating results. Fulgent defines non-GAAP income (loss) as net income (loss) calculated in accordance with accounting principles generally accepted in the United States of America, or GAAP, plus amortization of intangible assets, plus restructuring costs, plus acquisition-related costs, including banking fees and legal fees associated with acquisitions, plus equity-based compensation expenses, plus or minus the non-GAAP tax effect, and plus or minus other charges or gains, as identified, that management believes are not representative of the Company's operations. For the year 2022, the non-GAAP tax effect is calculated by applying the statutory corporate tax rate on the amortization of intangible assets, restructuring costs, acquisition-related costs, and equity-based compensation expenses. Fulgent defines adjusted EBITDA income (loss) as GAAP income (loss) plus or minus interest (expense) income, plus or minus provisions (benefits) for income taxes, plus restructuring costs, plus acquisition-related costs, plus acquisition-related costs, plus equity-based compensation expenses. Fulgent taxes, plus restructuring costs, plus acquisition-related costs, and equity-based compensition expenses. Fulgent defines adjusted EBITDA income (loss) as GAAP income (loss) plus or minus interest (expense) income, plus or minus provisions (benefits) for income taxes, plus restructuring costs, plus acquisition-related costs, plus equity-based compensation expenses. Fulgent may continue to incur expenses similar to the items added to or subtracted from GAAP income (loss) to calculate non-GAAP

items are unusual, infrequent or non-recurring. Management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measure of net income (loss) in evaluating the Company's operating performance. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in conformity with GAAP, and non-GAAP financial measures as reported by Fulgent may not be comparable to similarly titled metrics reported by other companies.

### About Fulgent

Fulgent is a technology-based company with a well-established clinical diagnostic business and a therapeutic development business. Fulgent's clinical diagnostic business offers molecular diagnostic testing services, comprehensive genetic testing, and high-quality anatomic pathology laboratory services designed to provide physicians and patients with clinically actionable diagnostic information to improve the quality of patient care. Fulgent's therapeutic development business is focused on developing drug candidates for treating a broad range of cancers using a novel nanoencapsulation and targeted therapy platform designed to improve the therapeutic window and pharmacokinetic profile of new and existing cancer drugs. The Company aims to transform from a genomic diagnostic business into a fully integrated precision medicine company.

### **Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Examples of forward-looking statements in this press release include statements about, among other things: future performance; guidance regarding expected quarterly and annual financial results, core revenues, GAAP loss, and non-GAAP loss; evaluations and judgments regarding the stability of certain revenue sources, the Company's cash position and sufficiency of its resources, momentum, trajectory, vision, future opportunities and future growth of the Company's testing services and technologies and expansion; the Company's research and development efforts, including any implications that the results of earlier clinical trials will be representative or consistent with later clinical trials and the expected timing of enrollment for these trials or the availability of data or results of these trials; the Company's identification and evaluation of opportunities and its ability to capitalize on opportunities, capture market share, or expand its presence in certain markets; and the Company's ability to continue to grow its business.

Forward-looking statements are statements other than historical facts and relate to future events or circumstances or the Company's future performance, and they are based on management's current assumptions, expectations, and beliefs concerning future developments and their potential effect on the Company's business. These forward-looking statements are subject to a number of risks and uncertainties, which may cause the forward-looking events and circumstances described in this press release to not occur, and actual results to differ materially and adversely from those described in or implied by the forward-looking statements. These risks and uncertainties include, among others: the market potential for, and the rate and degree of market adoption of, the Company's tests, including its Beacon787 panel; its ability to maintain turnaround times and otherwise keep pace with rapidly changing technology; the Company's ability to maintain the low internal costs of its business model; the Company's ability to maintain an acceptable margin; risks related to volatility in the Company's results, which can fluctuate significantly from period to period; risks associated with the composition of the Company's customer

base, which can fluctuate from period to period and can be comprised of a small number of customers that account for a significant portion of the Company's revenue; the Company's level of success in obtaining coverage and adequate reimbursement and collectability levels from third-party payors for its tests and testing services; the Company's level of success in establishing and obtaining the intended benefits from partnerships, strategic investments, joint ventures, acquisitions, or other relationships; the success of the Company's development efforts, including the Company's ability to progress its candidates through clinical trials on the timelines expected; the Company's compliance with the various evolving and complex laws and regulations applicable to its business and its industry; and the Company's ability to protect its proprietary technology and intellectual property. As a result of these risks and uncertainties, forward-looking statements should not be relied on or viewed as predictions of future events.

The forward-looking statements made in this press release speak only as of the date of this press release, and the Company assumes no obligation to update publicly any such forward-looking statements to reflect actual results or to changes in expectations, except as otherwise required by law.

The Company's reports filed with the U.S. Securities and Exchange Commission, or the SEC, including its annual report on Form 10-K for the fiscal year ended December 31, 2022, filed with the SEC on February 28, 2023, and the other reports it files from time to time, including subsequently filed annual, quarterly and current reports, are made available on the Company's website upon their filing with the SEC. These reports contain more information about the Company, its business and the risks affecting its business, as well as its results of operations for the periods covered by the financial results included in this press release.

## Disclaimer

#### Forward-Looking Statements and Market Data

This presentation contains forward-looking statements, which are statements other than those of historical facts and which represent the estimates and expectations of Fulgent Genetics, Inc. (the "Company") about future events based on current views and assumptions. Examples of forward-looking statements made in this presentation include, among others, those related to long-term upside or value, management of risk, anticipated growth and positioning, addressable market estimates, the Company's business, products, technologies, competitive landscape, scalability, plans regarding development and launch of potential future products, and any businesses the Company may seek to acquire or has acquired or has invested in or may seek to invest in, including statements regarding Fulgent Pharma Holdings, Inc. ("Fulgent Pharma"), Inform Diagnostics, CSI Laboratories, and any potential synergies, or transformation of the Company's business, long-term visions and strategies, including, with respect to Fulgent Pharma, those designated to create a vertically integrated solution for cancer care, the clinical development of Fulgent Pharma's pipeline and related statements and assumptions regarding development timelines, any potentially accelerated pathway for regulatory approval, the potential safety and efficacy of the nanodrug delivery platform and any related therapeutic candidates, the potential market sic for these candidates and platforms and the value of available data, including genomic data and guidance regarding the Company's future performance and results of operations. The Company's views and assumptions on which these forward-looking statements are based may prove to be incorrect. As a result, matters discussed in any forward-looking statements. Important factors that could cause actual results to differ materially from those inpiled by any forward-looking statements. Discussion and Analysis of Financial Condition and Results of Operations" in the Company's reports filed with the Securities and Exchange Commission (

This presentation also includes market data and forecasts with respect to the industry in which the Company operates. In some cases, the Company relies upon and refers to market data and certain industry forecasts that have been obtained from third-party surveys, market research, consultant surveys, publicly available information and industry publications that the Company believes to be reliable. These data and estimates involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates.

#### Non-GAAP Financial Measures

This presentation contains certain supplemental financial measures that are not calculated pursuant to U.S. generally accepted accounting principles ("GAAP"). These non-GAAP measures are in addition to, not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. A reconciliation of non-GAAP measures to GAAP measures is contained in this presentation.

## Leadership Team

# About Fulgent

We are a premier global, technology-based genetic testing company focused on transforming patient care in oncology, infectious and rare diseases, and reproductive health.

## **Mission**

Develop flexible and affordable diagnostics and therapeutics that improve the everyday lives of those around us.

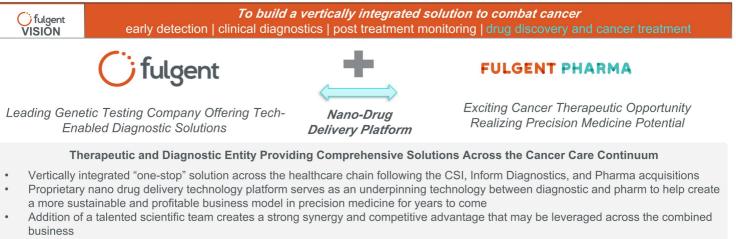

## **Core Values**

- Innovation
- Customer Service and Commitment
- Quality and Efficiency
- Our People

## Strategy

- Leverage our proprietary technology platform for broad application
- Further clinical/regulatory program for Pharma
- Operational excellence
- Disciplined M&A

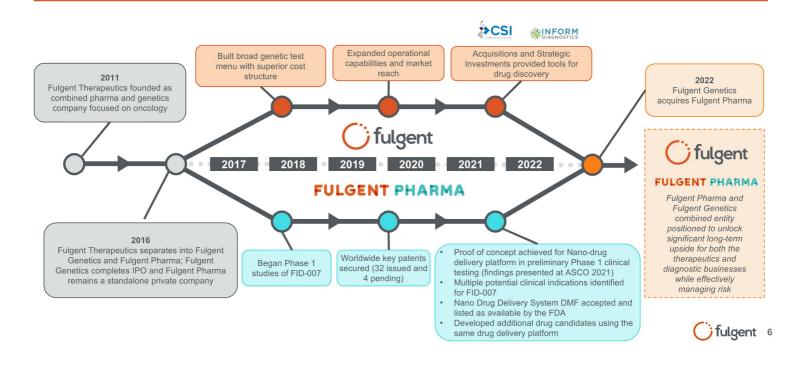

## Strategic Vision – A One-Stop Solution for Cancer Care

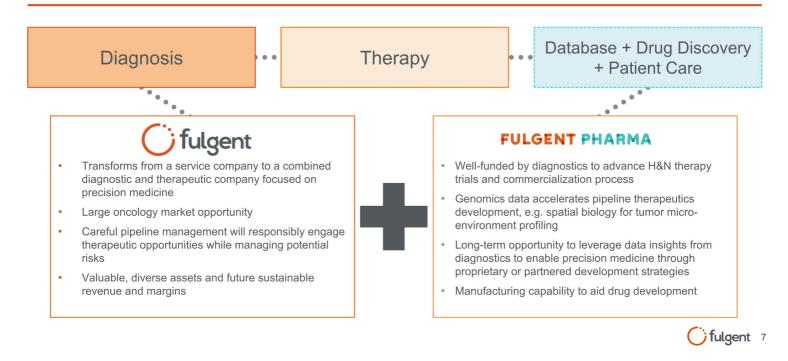

- Potential near-term opportunity includes shortened 505(b)(2) drug development and commercialization timelines and potential long-term
  opportunity leverages large data insights and novel analytical tools from diagnostics business to enable additional precision medicine
  pipeline through organic or partnered development strategies
- · Commitment to continue growing diagnostic and therapeutic opportunities through organic investments and M&A
- · Seasoned management team along with strong cash position allow Fulgent to enter therapeutic opportunities while managing risk

# History of Fulgent

## Long-Term Vision: Fulgent Continuum of Care

# DIAGNOSTICS

## NGS Testing – Panel Deep Dive

### Comprehensive Beacon Carrier Screening Tests

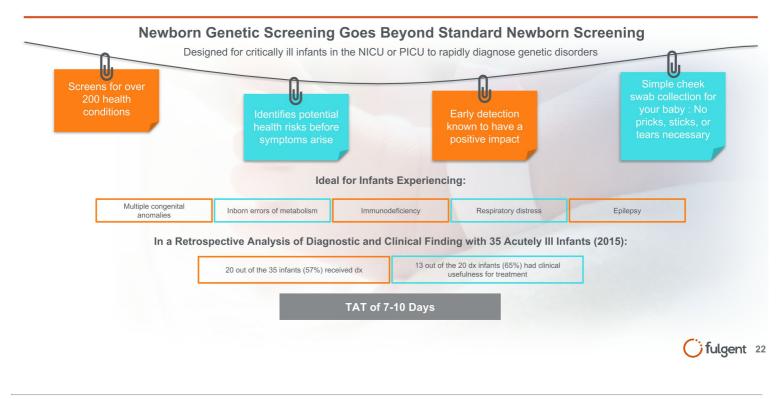

### PGT-A Can Expand a Patient's Prospects of a Successful Pregnancy

Preimplantation Genetic Testing for Aneuploidy (PGT-A) can identify potentially abnormal embryos for transfer in IVF, thereby expanding a patient's prospects of a successful pregnancy

## NGS Testing – Rapid Whole Genome for Newborns

### Targeting the Large Consumer Market with Picture Genetics

Launched in 2019 with significant growth amid COVID-19

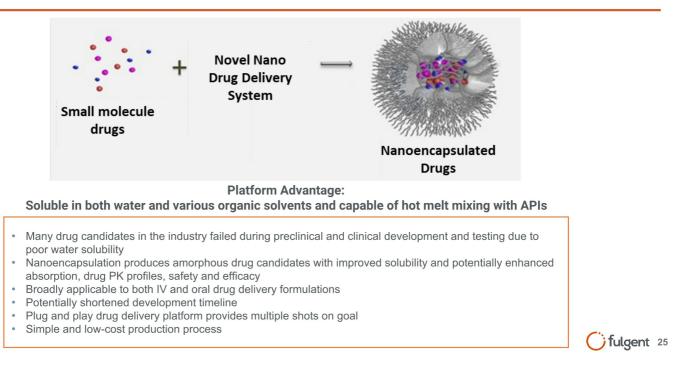

- A consumer-focused offering that merges clinical utility with accuracy of an accredited lab
- Extends Fulgent's NGS capabilities to a broader market
- Validated by successfully scaling to several million billable tests performed within months for COVID-19, after receiving an EUA
- Performs a complete sequencing (vs genotyping) analysis for better, more accurate results
- Patient-friendly with easy to use "order from home" model

   no doctor office visits or insurance necessary, though
   many tests are eligible for reimbursement
- Full service offering that includes analysis and genetic counseling support

## Nano-Drug Delivery Platform Overview

## FID-007 Phase I First in Human Clinical Trial – Preliminary Findings (n=40 patients)

- Dose levels up to 160 mg/m<sup>2</sup>/week with manageable safety profile
  - RP2D at 125 mg/m<sup>2</sup>/week
- There is preliminary evidence of anti-tumor activity in 40 heavily pre-treated patients across different tumor types (ORR = 18%)
- No high-grade neuropathy often seen in other taxanes
- Updated clinical data presented at ASCO 2023

A Phase 1 Trial of FID-007, a Novel Nanoparticle Paclitaxel Formulation, in Patients with Solid Tumors Jacob Thoma<sup>1</sup>, Diane Hahlb<sup>1</sup>, Diane Hanla<sup>2</sup>, Iene Kang<sup>1</sup>, Syma Isbal<sup>1</sup>, Jorge Nieva<sup>1</sup>, Diane Konsta<sup>1</sup>, Ming Heise<sup>1</sup>, Wiong Zhang<sup>2</sup>, Anthone Kikouey<sup>1</sup>, <sup>1</sup>University of Southern California, Norris Comprehensive Cancer Center, <sup>2</sup>Hoag Memorial Hospital; <sup>3</sup>Fulgent Pharma

### FID-007 Phase I Preliminary Highlights (as of 6/2/23):

#### **H&N** Cancer

• 57% ORR and 71% DCR were observed in 7 heavily treated H&N patients. Among them, 6/7 had prior Taxane treatment.

#### **Ampullary/Pancreatic**

• 50% ORR and 75% DCR were seen in 4 heavily treated ampullary and pancreatic patients

Note: all findings are preliminary 1. DCR includes Stable Disease (SD), Partial Response (PR), Complete Response (CR)

## Potential Market Opportunity for FID-007

# **Pipeline Progress**

• Wholly-owned drug candidate initially focused on Head & Neck (H&N), Pancreatic/Ampullary cancers

- Seeking initial therapeutic indication for 2<sup>nd</sup> line treatment of H&N cancer
- Exploring potential ampullary
- Potential FDA approval strategy uses 505(b)(2) studies, which may shorten clinical trial process and accelerate timeline to commercialization

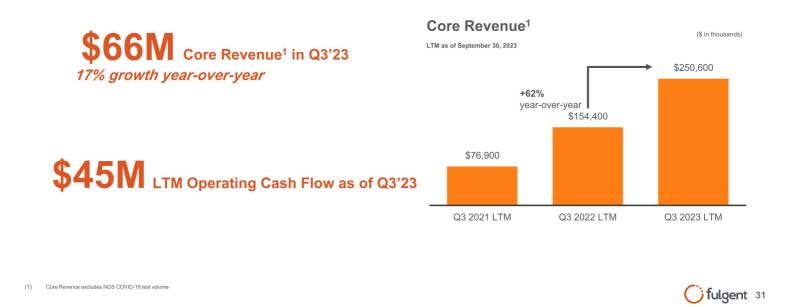

Drug Candidates	Target	Indication	Pre-Clinical	Clinical P1	Clinical P2	Clinical P3	Milestones
FID-007	Cytotoxic	Head and Neck (H&N) (505(b)(2))					Begin P2 Enrollment in 1H24
P10-007	Cytotoxic	Ampullary or ICI Resistant (505(b)(2))					Go/No-go Based on HN Study
FID-022	Cytotoxic	Colon (505(b)(2))					IND Filing by YE24

Additional new targeted therapies in preclinical development focused on various cancers

## Financial Performance: Revenue Profile

(1) Core Revenue excludes NGS COVID-19 test volume

**fulgent** 32

### Core growth reflects momentum across the business, including precision diagnostics, anatomic pathology, and pharma services

	Q4 2023	Full Year 2023
Core Revenue	\$64 M + <i>16% y/y</i> <sup>1</sup>	\$260 M +43% y/y <sup>1</sup>
GAAP EPS	2	(\$2.15)
Non-GAAP EPS	2	(\$0.95)

Expected Cash, cash equivalents, and investments in marketable securities of approximately \$830 million as of December 31, 2023<sup>3</sup>

(1)	Core Revenue excludes NGS COVID-19 test revenue for more accurate year over year comparison purposes.

Refer to Full Year 2023 guidance. Cash expenditures may be higher or lower than currently estimated due to a variety of facts and circumstances, including as a result of the Company's ongoing stock repurchase program or other expenditures outside of ordinary course. (2) (3) **fulgent** 33
